

## Short Bio

Ricardo Lagoa, February 2019

Graduated in Biochemistry at University of Coimbra (Portugal) and completed the PhD in Biotechnology and Biomedical Research at University of Extremadura (Spain) in 2011. Currently, he is Assistant Professor at ESTG-Polytechnic Institute of Leiria and also integrates UCIBIO-Applied Molecular Biosciences Unit, University NOVA of Lisbon, Portugal. He has been contributing to R&D projects on Biochemistry, Environmental and Biomedical issues and his research interests include oxidative stress in toxicology and disease, natural compounds and biomaterials applications.
